## TECHNICAL SKILLS

- C#
- .NET Core
- SQL
- Angular 8
- .NET Framework
- LINQ
- HTML
- CSS
- JavaScript
- jQuery
- WPF
- Bootstrap
- Entity Framework
- VB.NET
- GIT
- Subversion
- MVC
- VSTS

## PROFESSIONAL EXPERIENCE

### Software Engineer III

Kenan Advantage Group – North Canton, OH (10/18 – current)

- Experience in full stack development. First person to complete one of the 2020 initiative projects at Kenan Advantage Group, and completed it early.
- Strong understanding of the .Net framework (C#/VB.NET/ASP.net), MVC Architecture, WebForms, Entity Framework, LINQ, MS SQL Server, JavaScript, jQuery, Angular.JS, WebAPI, Ajax, JSON, T-SQL, Postman
- Supported old applications that used VB6 (Microsoft Access), VB.NET, .NET Framework, Visual Studio 2005, 2008, 2010, 2012, 2015, and 2017.
- Gathered Business Requirements, communicated with the clients on a daily basis, coded the entire Database (SSMS, T-SQL), Back-End (WebAPI, C#, .NET Framework, ADO.NET), Front-End (Bootstrap, CSS, JavaScript, jQuery, HTML, JSON, Ajax), using MVC Architecture.
- Hit the ground running on a multi-million dollar project (.NET Core, Entity Framework, C#, JavaScript, HTML, CSS, Bootstrap, jQuery, MVC, Window Services, Third Party Web APIs, JSON, Ajax, T-SQL, Postman), after the lead developer left without notice the week before deployment.
- Experience in solving difficult problems and dealing with many variables without a defined “right-answer”
- Ability to interpret a variety of instructions furnished in written, oral, diagram, or schedule form
- Ability to deal effectively with ambiguity and changing priorities
- Capable of designing, developing, implementing, and maintaining application environments to meet SLAs (Service Level Agreements)

### Software Engineer II

AmTrust Financial Services – Independence, OH (10/16 – 10/18)

- Started as Software Engineer I promoted after 4 months
- Experience in full stack development
- Strong understanding of the .Net framework (C#/VB.NET/ASP.net), MVC/WebForms, Entity Framework, LINQ, MS SQL Server, JavaScript/jQuery, Angular.JS, WebAPI
- Ability to write program specification and coding from program specifications
- Experience in solving difficult problems and dealing with many variables without a defined “right-answer”
- Ability to interpret a variety of instructions furnished in written, oral, diagram, or schedule form
- Ability to deal effectively with ambiguity and changing priorities
- Experience with Database design and development
- Capable of designing, developing, implementing, and maintaining application environments to meet SLAs (Service Level Agreements)
- Participate in gathering business requirements, lead client design sessions, and define application features
- Active hands-on member of development, support and maintenance teams
- Evaluate and minimize risk to the applications
- Lead internal development team and work hand in hand with project manager
- Provide technical assistance and serves as a resource to internal and external technology staff

## **Software Engineer**

RoviSys – Aurora, OH (07/15 – 10/16)

- Developed code for new applications and/or enhancements to existing applications
- Generated efficient application code that is traceable to technical specifications
- Effectively unit tested code prior to handing it over for testing. Implemented necessary changes as a result of peer code reviews
- Provided production support of existing systems
- Participated in team estimation, planning, and daily stand-up meetings
- Provided accurate and timely communication of the status of assignment, job responsibilities, and resolution of problems to the appropriate parties, following established policies and procedures
- Ensured appropriate documentation is created and maintained
- Led or participated in user/customer meetings
- Provided guidance and training to less-experienced team members
- Adhered to policies, procedures, and standards
- Often required to complete additional work outside of normal business hours to ensure system stability and quality
- Performed special projects and additional duties and responsibilities as required

## **LEADERSHIP EXPERIENCE**

**Association for Computing Machinery (ACM) – The University of Akron – Akron, OH**

- Participated in ACM programming challenges and competitions:
  - Using C++; 4 hours to solve 10 programming challenges rated at different difficulty levels.
  - Team work by coming to a conclusion on the best approach and language to use on a specific programming problem

## **EDUCATION**

**Bachelor of Computer Science**

Minor: Business Administration

The University of Akron – Akron, OH (Graduated: August 2015)

## **LANGUAGES**

- English (*fluent*)
- Portuguese (*native language*)
